

Informational Session:

Thursday, April 5th 5:30 PM
Broun Hall, Room 235

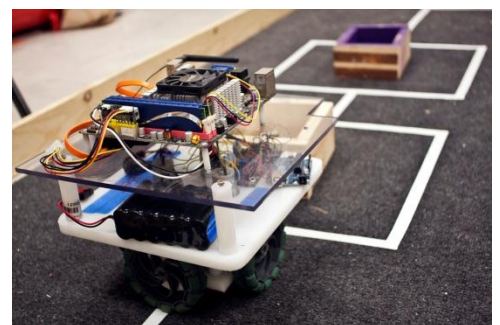

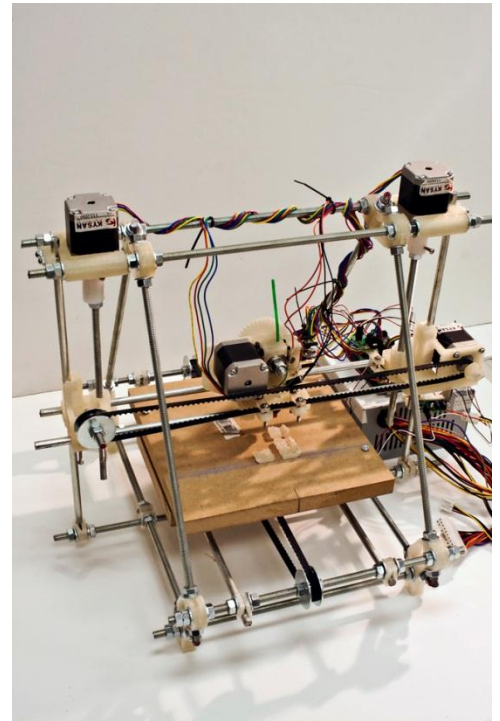

Food will be provided

The *Student Projects and Research Committee (SPaRC)* is a “Playground with a Purpose.” Students who join SPaRC will be explorers and creators in the fields of electrical and computer engineering and closely related fields. They will also document their results and share them both within and outside of the Auburn community at all levels.

SPaRC is currently looking for new members interested in working in the field of robotics. SPaRC is specifically looking for engineers with experience in the following fields:

- Mechanical Engineering
 - Mechanical Design
- Electrical Engineering
 - Microcontroller Programming
- Software Engineering
 - Experience in ROS
 - Experience in Python, C++, Java, etc.

For more information visit <http://www.ausparc.com> or send an email to sparc.au@gmail.com with “SPaRC Potential Member” in the subject line.
